NIGERIA

CLUB LEADERSHIP, ACADEMIES & SOCIAL IMPACT

Kebbi United FC + State Academies | 2021-2023

SCOPE

- Directed Kebbi United FC operations.
- Led two state academies across Nigeria.
- Worked across player development, scouting, methodology and stakeholder engagement.

KEY CONTRIBUTIONS

- Built player development pathways and technical structures.
- Helped organise scouting systems and talent identification processes.
- Strengthened football networks and relationships across Nigeria.
- Combined elite-football ambition with grassroots development and social impact.

“ From boardroom decisions to community impact, football leadership must be both **strategic and human.** ”

ENPPI WEST FOOTBALL ACADEMY

| STANDARDISING DEVELOPMENT

Egypt | 2023 - 2024

ROLE

Technical Director overseeing methodology, training model and long-term development strategy.

KEY CONTRIBUTIONS

- > Standardised academy structure and coaching processes.
- > Improved talent evaluation frameworks and long-term development planning.
- > Supported alignment with international high-performance standards.
- > Connected academy development with clear football identity and player-development principles.

TURNING DATA INTO FOOTBALL LEADERSHIP & RESULTS

Brazil-Based Global Operations | Football Strategy | 2024–Present

WHAT I DELIVERED

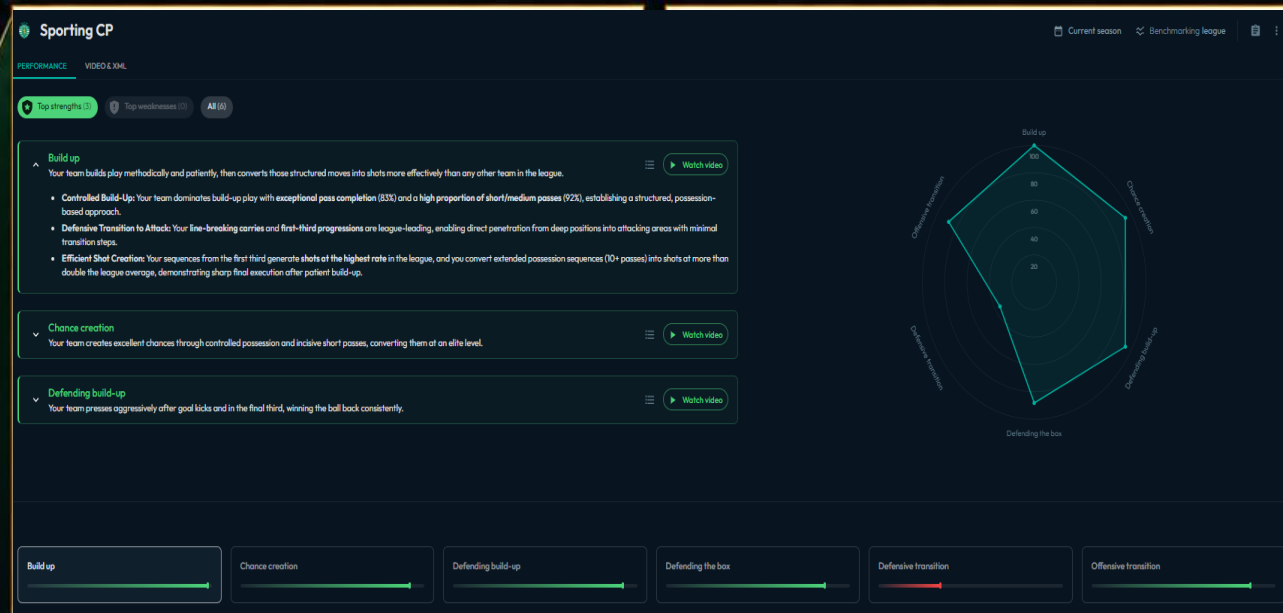

- Signed the first MyGamePlan clubs in Brazil, Ecuador, USA and Saudi Arabia.
- Based in Brazil, expanded deep knowledge of the South American football market and ecosystem.
- Worked closely with football directors, chief scouts, coaches and analysts from top clubs across South America, Europe, USA and Saudi Arabia.
- Supporting clubs in areas such as game model definition, squad building, performance analysis, and scouting, using MyGamePlan's data-driven tools to improve strategic decisions.

IMPACT

- Turned football data into actionable leadership insights for clubs and executives.
- Helped strengthen recruitment, performance analysis and long-term squad planning.
- Connected data, coaching and executive decision-making into one coherent framework.
- Reinforced a strategic, modern football identity built on clarity and evidence.

“Better data. Better decisions.
Stronger clubs. Greater impact.”

MindStats | Mental Performance Intelligence

CEO & Co-Founder | 2025–Present

VISION

Building an AI platform focused on measuring mental performance in elite football.

STRATEGIC VALUE

- ✓ Helps clubs assess resilience, decision-making and psychological performance signals.
- ✓ Supports recruitment strategy, player development and competitive intelligence.
- ✓ Bridges the gap between performance data and mental-performance insight.
- ✓ Turns invisible factors into measurable, actionable football intelligence.

The mental layer is the last competitive frontier in Elite Sports

THE PROBLEM

Professional sports already measures almost everything, physical conditioning, training load, GPS data, technical and tactical statistics. However, the mental dimension continues to be evaluated subjectively, based on the perception of directors, coaches or psychologists, without objective metrics or systematic integration into technical dashboards.

PHYSICAL & TACTICAL (SOLVED)

- ✓ GPS Load & Distance
- ✓ xG Models & Shot Maps
- ✓ Heatmaps & Passing Networks
- ✓ Technical Completion Rates

MENTAL & BEHAVIORAL (UNMEASURED)

- ✗ Pressure Response
- ✗ Fear & Hesitation
- ✗ Momentum Shifts
- ✗ Reaction to Errors

SOCIAL IMPACT | FOOTBALL AS A DEVELOPMENT PLATFORM

Connecting football development, education and community impact

Foundation / Community Football Projects

CORE IDEA

Football clubs are not only competitive organisations. They are community institutions with the power to educate, mobilise, create opportunity and build belonging.

WHAT THIS MEANS IN MY WORK

Connecting elite football ambition with grassroots development, youth pathways, education, social responsibility and community engagement.

STRATEGIC VALUE FOR CLUBS

- Stronger community connection
- Clearer club identity
- Better youth engagement
- More sustainable talent development
- Greater institutional credibility with partners, public bodies and investors

*A strong football club does not only develop players.
It develops people, communities and long-term belonging.*

EXECUTIVE OPERATING PHILOSOPHY

Building football structures that connect identity, operations, talent and performance

PROFILE

International football executive with experience across Europe, Africa, South America and the Middle East, combining club management, football operations, academy development, scouting, performance analysis, commercial strategy and innovation.

WHAT I BRING

- Experience building football structures from the ground up.
- Leadership of multicultural projects across club and academy environments.
- Strong contribution to governance, talent pathways and data-driven decision-making.
- Ability to translate strategic vision into practical football operations.

OPERATING VALUE

- Helping ownerships groups and football departments transform ideas into clear structures, efficient processes and measurable sporting progress.
- Connecting football identity, first-team needs, academy pathways, scouting, recruitment and data into one coherent operating model.
- Particularly valuable in environments that require structure, modernisation and alignment between the board, technical staff, players, academy and the wider club ecosystem.

I bring a strategic and practical approach to club development, turning vision into structure, alignment and long-term sporting progress.
